

display device and the second display device is the other one of the liquid crystal display device and the EL display device.

2. (Amended) A portable electronic device comprising:

a cover member comprising a first display device for displaying an image; and

a second display device comprising a touch input operational portion,

wherein the cover member and the second display device are attached to each other so as to allow opening and closing,

wherein the first display device is one of a liquid crystal display device and an EL display device and the second display device is the other one of the liquid crystal display device and the EL display device.

✓ Cancel Claims 12-15.

19. (Amended) A portable electronic device comprising:

a cover member comprising an EL display device for displaying an image and a reflection display device,

wherein the cover member and the reflection display device are attached to each other so as to allow opening and closing, and

wherein the reflection display device is made to display by irradiating light emitted from the EL display device.

#### REMARKS

Applicants will address each of the Examiner's rejections in the order in which they appear in the office action.
